

**GARDEN GROVE UNIFIED SCHOOL DISTRICT
GOVERNING BOARD MEMBER**

LINDA PAULSEN-REED

AGE: 51

OCCUPATION: President, Garden Grove Unified School District
Elementary School Principal/Parent

It has been an honor to serve the Garden Grove Unified School District as a Trustee for eight years. Our continued exemplary increase in student achievement has earned the honor of being a Broad Foundation Finalist as one of five top districts in the nation for the third year. This honor has brought thousands of dollars in to the district for student scholarships.

With strong leadership, and a clear focus, priorities have been student centered; retaining class size reduction, implementing a rigorous curriculum and providing quality instructional materials while remaining fiscally sound.

As a 44 year resident and graduate of Bolsa Grande, I have seen significant changes in our community. I experience daily the challenges of preparing our children to be productive citizens in the community. Fifteen years as an elementary teacher, nine as a middle school administrator, and four as an elementary principal have given me a wealth of experience in education.

I have a life long commitment to education and believe my background provides me with the foundation necessary to lead this district. Children are the future of this community, and there is no greater investment than a solid education for our youth.
